Dear Ms. Faulk,

I am writing in support of the proposed rule 4.11 that would allow taping of witness interviews. As a practicing attorney, I see witness statements play vital role in all stages of criminal proceedings from filing decisions to witness testimonies.

It becomes particularly important when a case does not settle and proceeds to trial. Whether we record a law enforcement officer or a civilian, taped interviews will serve vital role in orderly and expeditious resolution of criminal cases. Therefore, I hope you will endorse the proposed rule 4.11 and know that myself and many of my colleagues are in support as well. Thank you for your consideration.

Regards,

Marcus Naylor
